Welcome to Eastham

... Where Natural Beauty Stays on Cape Cod

HERE'S wishing you the best vacation of your life . . . in beautiful Eastham. We greet you sincerely and extend warm wishes again for your fullest enjoyment of Eastham's uniquely wonderful natural facilities.

Stay as long as you can; Eastham has many months for your vacationing. And we invite you to consider this community too, for ideal year 'round country living . . . the Garden Spot of Cape Cod. We hope you find this 1960 Handbook helpful in making your present visit a happy and satisfying one. And do come again.

For all your friends, the townspeople of Eastham.

MISCELLANEOUS INFORMATION

Please register at Town Hall. In case of emergency it will be easier to find you. You must obtain a permit from the Fire Chief before setting an out-of-doors fire. Please note that this includes beach fires. Phone Orleans 403-J or Orleans 758-R. Contact the Recreation Committee. They may have some sports in which your children would like to participate. See index for swimming instruction.

ABOUT THE COVER

Opening quahogs is an art that can cause cuts, consternation and cussing in the unpracticed. To make sure the helpful old timer assisted the visitors correctly, Selectman Maurice Wiley posed his hands with knife and quahog so that the artist could get just the right grip and angle. That ought to make the visitor's pile of shells grow more rapidly now.

Harold R. Cole, Eastham's Town Miller.

The Windmill—minus its sails.

EASTHAM'S HISTORIC WINDMILL

(Condensed from an article by Theodore G. Mehlin)

ONE day, probably in 1788, a little group of early settlers near the end of Cape Cod watched a sailing vessel beat in toward the land. The approach, always a bit tricky, was made even more difficult because of the deckload of heavy oak beams she carried, the timbers of a dismantled grist mill.

The mill, built sometime before the year 1700 at Plymouth by one Thomas Paine, had been in use there for nearly a century. But its great oak beams were still sound so the sails and beams and the millstones were shipped across the bay—floated across, is the way the old record reads—to grind corn into cornmeal for the housewives of the Lower Cape.

In 1793 the old mill was taken apart again and twenty-two oxen hauled it over the sandy roads to Eastham where it now stands. Here it ground the meal that fed the farmers and fishermen of the surrounding Cape for close to a century. Sometime

around 1900 the old mill fell into disuse but it continued to be of interest to the "summer people". Here it stands today in Eastham's Windmill Park, the oldest workable grist mill on Cape Cod.

The wooden shaft carrying the blades is as big around as a man's body and has a six foot diameter wooden "crown" gear with individual oak teeth held in place by wedges. These turn a two foot iron spur gear on the vertical shaft, itself as big around as a telephone pole. This vertical shaft carries the drive down through a hole in the second floor to the millstones below. When grinding is finished the mill is stopped by a pair of rope operated brake shoes that clamp onto the outside of the crown wheel.

"When we're grinding, the whole building trembles," says Harold R. Cole, the Town miller, "and you can hear the noise it makes for a considerable distance in every direction."

EASTHAM, LAND OF SCENIC BEAUTY

THIS breathtakingly beautiful view from one of the hills beside Salt Pond is one of the reasons Eastham has been selected by the National Park Service as the location for the main visitor information center and entrance to the proposed Cape Cod National Seashore Park. This, approximately, is the view at the entrance site where visitors would first begin to feel the majestic proportions of Eastham's sea and landscapes—where you would first step into this nationally recognized area of superb natural beauty.

Nature's lavish hand with its beauty in Eastham is apparent in no other roadside spot quite so much as it is at Salt Pond. Looking eastward from Route 6 Salt Pond narrows into its inlet, then into Nauset Bay with its scenic and storied marshes at the back of the beach dunes. And in the Atlantic beyond, the surf is often clearly vis-

ible from this inland panoramic vantage point.

Eastham will always be the center of the richest endowment of natural coastal splendor. In an effort to keep such beauty for all time, grateful Eastham residents are planning to have its future growth patterned into this unique asset, much as an architect plans a new residence to utilize natural features of terrain for the most attractive final result. Future business and residential structures along Eastham's highways and byways will be planned and built, it is expected, to help preserve the charm and beauty for which Eastham is rightfully becoming more and more famous. This beauty is a rich heritage of which Eastham is proud and one it hopes always to treasure and guard so it may be shared with visitors for generations to come.

RECREATION AND SPORTS

BATHING

BATHING and "beaching" are two of the main reasons why many vacationists come to Eastham.

The Atlantic Ocean beach extends for miles and the surf here is unexcelled. Known as Nauset or the Great Beach, its broad sands invite you to relax in leisurely strolls or, between dips, just sit and enjoy the sun and music of the breakers.

While Nauset Beach is ideal for all bathers at low tide, parents of younger children may prefer to use the warmer and generally shallower bathing available on the Bay shores at high tide or in the clear, fresh water ponds.

Attention Bathers! While on the Beach

DO

- 1—Call for help when you think you need it.
- 2—Report to Life Guard for First Aid Treatment.
- 3—Ask Life Guard for any information about tides, runouts, etc.
- 4—Call Orleans 117 for emergency on beach or in water.
- 5—Help us keep the beach safe and clean.

DON'T

- 1—Call for help unless you need it. That is no joking matter.
- 2—Go swimming right after eating or directly after any vigorous exercise.
- 3—Stay in sun over half hour on first exposure.
- 4—Take dogs on beach without leash.

FISHING

Fishing is one of the sports most popular with hundreds of our summer visitors. During the summer, the Striped Bass, King of salt water game fish in Cape Cod waters, is the chief source of fishing sport. Because of its unusual geographical assets Eastham's Striper fishing is hard to beat. Surf casting all along the tides at Nauset Beach attracts the experienced and the novice to the exhilarating thrill of trying for the "big ones." And charter sport fishing boats, many skippered by Eastham men, will take you from Rock Harbor in quest of Stripers offshore in the Bay. Prize tournaments in nearby towns add to the excitement of the catch.

Bluefish entice the angler too and are caught in both surf and bay in season. Flounder, tautog and a number of other good eating bottom fish make most any fishing trip from Eastham's shores something to recall happily.

Eastham's Town Cove is an excellent spot for flounder and plaice fish and trolling for Striped Bass here offers additional thrills. There are several boat liveryes on the Cove shore so fishing can be fun for all the family.

From nearby Provincetown several sport fishing charter boats make runs for the Tuna which begin moving into Cape Cod waters in June. Generally they abound here until November, ranging in weight from about one hundred to a thousand pounds.

The fresh water ponds of Eastham, well stocked with fish, offer the angler much added sport with

rod and reel. Bass, pickerel, white and yellow perch and horned pout can be taken from these waters.

SHELLFISHING

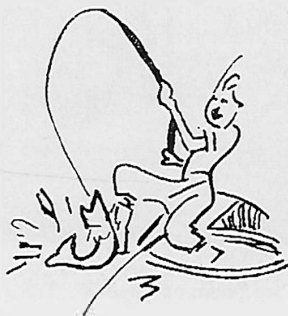

The shellfish (clams, oysters, quahogs, and others) are not so plentiful now as in years gone by. But the Town of Eastham does plant seed quahogs in Salt Pond and here on a Sunday a pail full dug at low tide will provide an interesting activity and delicious eating. (See regulations for taking shellfish.)

MANY MORE PLEASURES

Beautiful Eastham and vicinity offer many other activities and opportunities for the relaxation and enjoyment of visitors of all ages. A few suggestions: boating, square dancing, ball games, band concerts, church suppers, fairs, food sales, auctions, hiking, bird watching, wild life study, beach bugging, horseback riding, golf, picnics, photography, painting, Indian relic hunts and tombstone history.

EASTHAM BOARD OF TRADE

This group of Eastham business men organized in 1959 for the purpose of uniting on subjects of general welfare. From the standpoint of Eastham's visitors, the Eastham Board of Trade plans to help Eastham to grow aesthetically as well as to prosper economically, so Eastham may always be a beautiful place to visit and vacation.

EASTHAM IMPROVEMENT ASSOCIATION

WHAT IT IS, AND DOES

The town of Eastham, as a vacation area, derives a substantial part of its tax income from non-resident property owners who have no vote in town affairs.

The Eastham Improvement Association is an organization of non-resident taxpayers who have only one purpose:—to give the members a voice in helping to solve community problems. This help may take the form of focusing attention on some community need or of making a contribution toward some worthy project. For instance, the development of the windmill park, the green head fly control project, police department, radio equipment, toilets at the ocean beaches and a life guard are some of the items which have been discussed and to some degree furthered by The Eastham Improvement Association.

The organization is open to all non-resident tax payers. The dues are only one dollar per year

and all non-resident property owners are invited to join.

The selectmen usually attend our two summer meetings to answer questions and give information on further plans and developments as far as possible. This effects a better understanding of town government problems and costs. The benefit is mutual as the selectmen also find out what the summer residents desire.

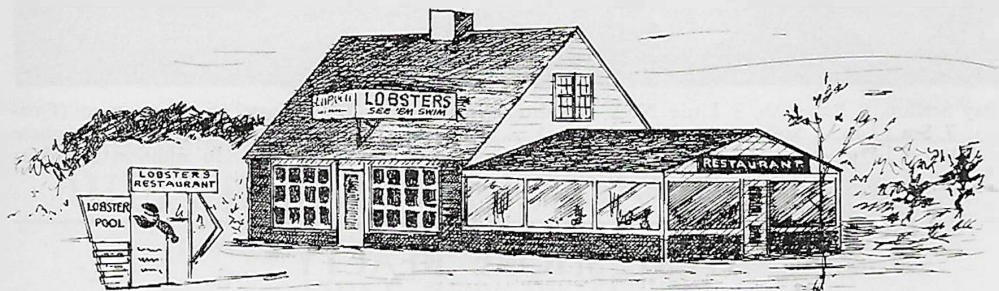

The rapid growth of the town and the proposed Cape Cod National Seashore Park will undoubtedly present new problems which will require careful thought and action.

A statement by

Herman M. Polley, President
Eastham Improvement Assn.

RUGGIERO'S BARBER SHOP

GREAT POND—This large fresh water pond and others in Eastham have town-maintained beaches where fresh water bathing is at its best. Clear, clean water and sand, and off-shore float and a roped area for non-swimmers are part of Great Pond's attractions. Many visiting families enjoy the boat launching ramp and use the pond for water skiing or just leisurely boating and fishing.

SHELLFISH REGULATIONS

EASTHAM

IS EASY TO GET TO

AFTER you cross the Cape Cod Canal at the Sagamore Bridge and start along the Mid-Cape Highway, Eastham is the very first town you come to without having to make a turn off the Highway.

Just 39 miles along this super-highway when you use the Sagamore Bridge, Eastham is but a few miles more if you use the Bourne Bridge.

MILEAGE INFORMATION
